

Why an OTC membership?

Ontario Traffic Council

www.otc.org

INDUSTRY LEADER

Your OTC membership supports an organization that has championed traffic engineering, education and enforcement since 1950.

MEMBER RATES

OTC members receive reduced rates for all OTC events including our annual courses/workshops as well as the OTC conference.

FIRST TO KNOW...

OTC members are the first to learn of our engagement in various research projects. This keeps you in the loop on the development of new manuals and enhancements being made to existing materials.

COMMITTEE PARTICIPATION

The OTC has several Committees which help plan and execute various training initiatives. These committees are comprised of OTC members and we encourage you to get involved, offer your expertise and help contribute to the direction of our programming.

CONTRIBUTE

Our members are the only group given the opportunity (by the OTC) to contribute their opinions and knowledge to these research projects on which OTC has taken the lead or is contributing to.

FEEDBACK

Members who attend any given workshop, course or conference are asked for their feedback. These comments are used to help develop our programming. OTC members truly help shape the content and format of each of our training opportunities.

ACCESS TO SUPPLIERS

We provide members access to professionals who are on the cutting edge of advancements in traffic related technologies and the ability to interact with them face to face through our Supplier Showcases at both the OTC Parking Workshop and annual conference.

RADAR & OT MAGAZINE

The monthly newsletter (*Radar*) and quarterly magazine (*OT Magazine*) are exclusive to OTC members. Both publications contain valuable information on upcoming training opportunities, updates on research projects and relevant and timely articles based on Ontario's traffic industry. OTC members are also encouraged to contribute articles to *OT Magazine* based on their own knowledge and experience on various topics.
