

# Senior Project Manager, Traffic Safety Engineering

Hamilton, ON

Road safety is your passion as well as your area of expertise as a Certified Engineering Technologist, and you're ready to make your mark in traffic safety engineering at the City of Hamilton as part of the Roads and Traffic Division team.

Reporting to the Superintendent of Traffic Engineering, you will provide leadership to a work group engaged in the delivery Traffic Safety and administrative services to the public, evaluating the financial, administrative and staff performance as well as managing the policies and programs of the Hamilton Strategic Road Safety Program. As an experienced, results-oriented Senior Project Manager, you keep current with evolving industry standards and community trends, you will be in a position to recommend policy and continuous improvement strategies in the delivery of services to meet mandated goals and objectives in accordance with City and Provincial guidelines.

Leading by example, you will set above-average standards and instill a customer service focus in all activities undertaken by your team, and bring a "best practices" approach to the development and delivery of quality services in a timely, cost-effective manner.

**Your qualifications as a Senior Project Manager, Traffic Safety Engineering, include:**

- Demonstrated knowledge of, and experience in, a transportation/traffic engineering environment normally acquired by attaining a diploma or degree in civil engineering, traffic engineering or a relevant discipline, or a combination of education and relevant work experience.
- Certified Engineering Technologist (CET) designation.
- Certification as a Road Safety Professional or ability to obtain said certification within 1 year.
- Demonstrated ability to effectively manage a multi-disciplinary staff in a results-oriented and predominantly unionized environment.
- Experience and knowledge in the area of contract supervision, including specification preparation, supervision and quality control/assurance.
- Formal management training, with experience in a supervisory role with a focus on effective leadership, facilitation, communication, presentation, interpersonal and organizational skills.
- Well-developed ability to work with large public groups.
- Demonstrated experience in developing Safety Performance Function models and implementing road safety programs and initiatives.
- A valid Class G Driver's Licence.

This permanent, full-time position offers a wage range of \$47.537 - \$55.597 per hour (based on a 35-hour work week schedule).

**Hamilton. A city of progress.**

At the **City of Hamilton**, our vision is "to be the best place to raise a child and age successfully."
