Additional Resources

Road Safety for Ontario's Youth

Let's all do our part and teach our children and youth road safety.

This educational site is packed with learning tools and teaching aids that were developed based on the age of the students you're teaching.

You can navigate the site by grade level or topic. There are lessons plans, posters, activities and games that can be used with children and youth.

Brigade Scolaire

The route to school should always start with safety.
