We all want
micromobility to work for
public stakeholders.

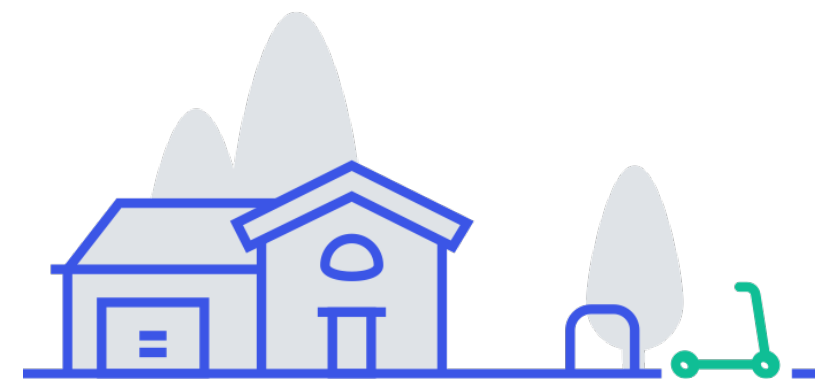

Cities

I need to be accountable to the public and support a safe, equitable city.

Operators

I need to be able to create a sustainable service that people love using.

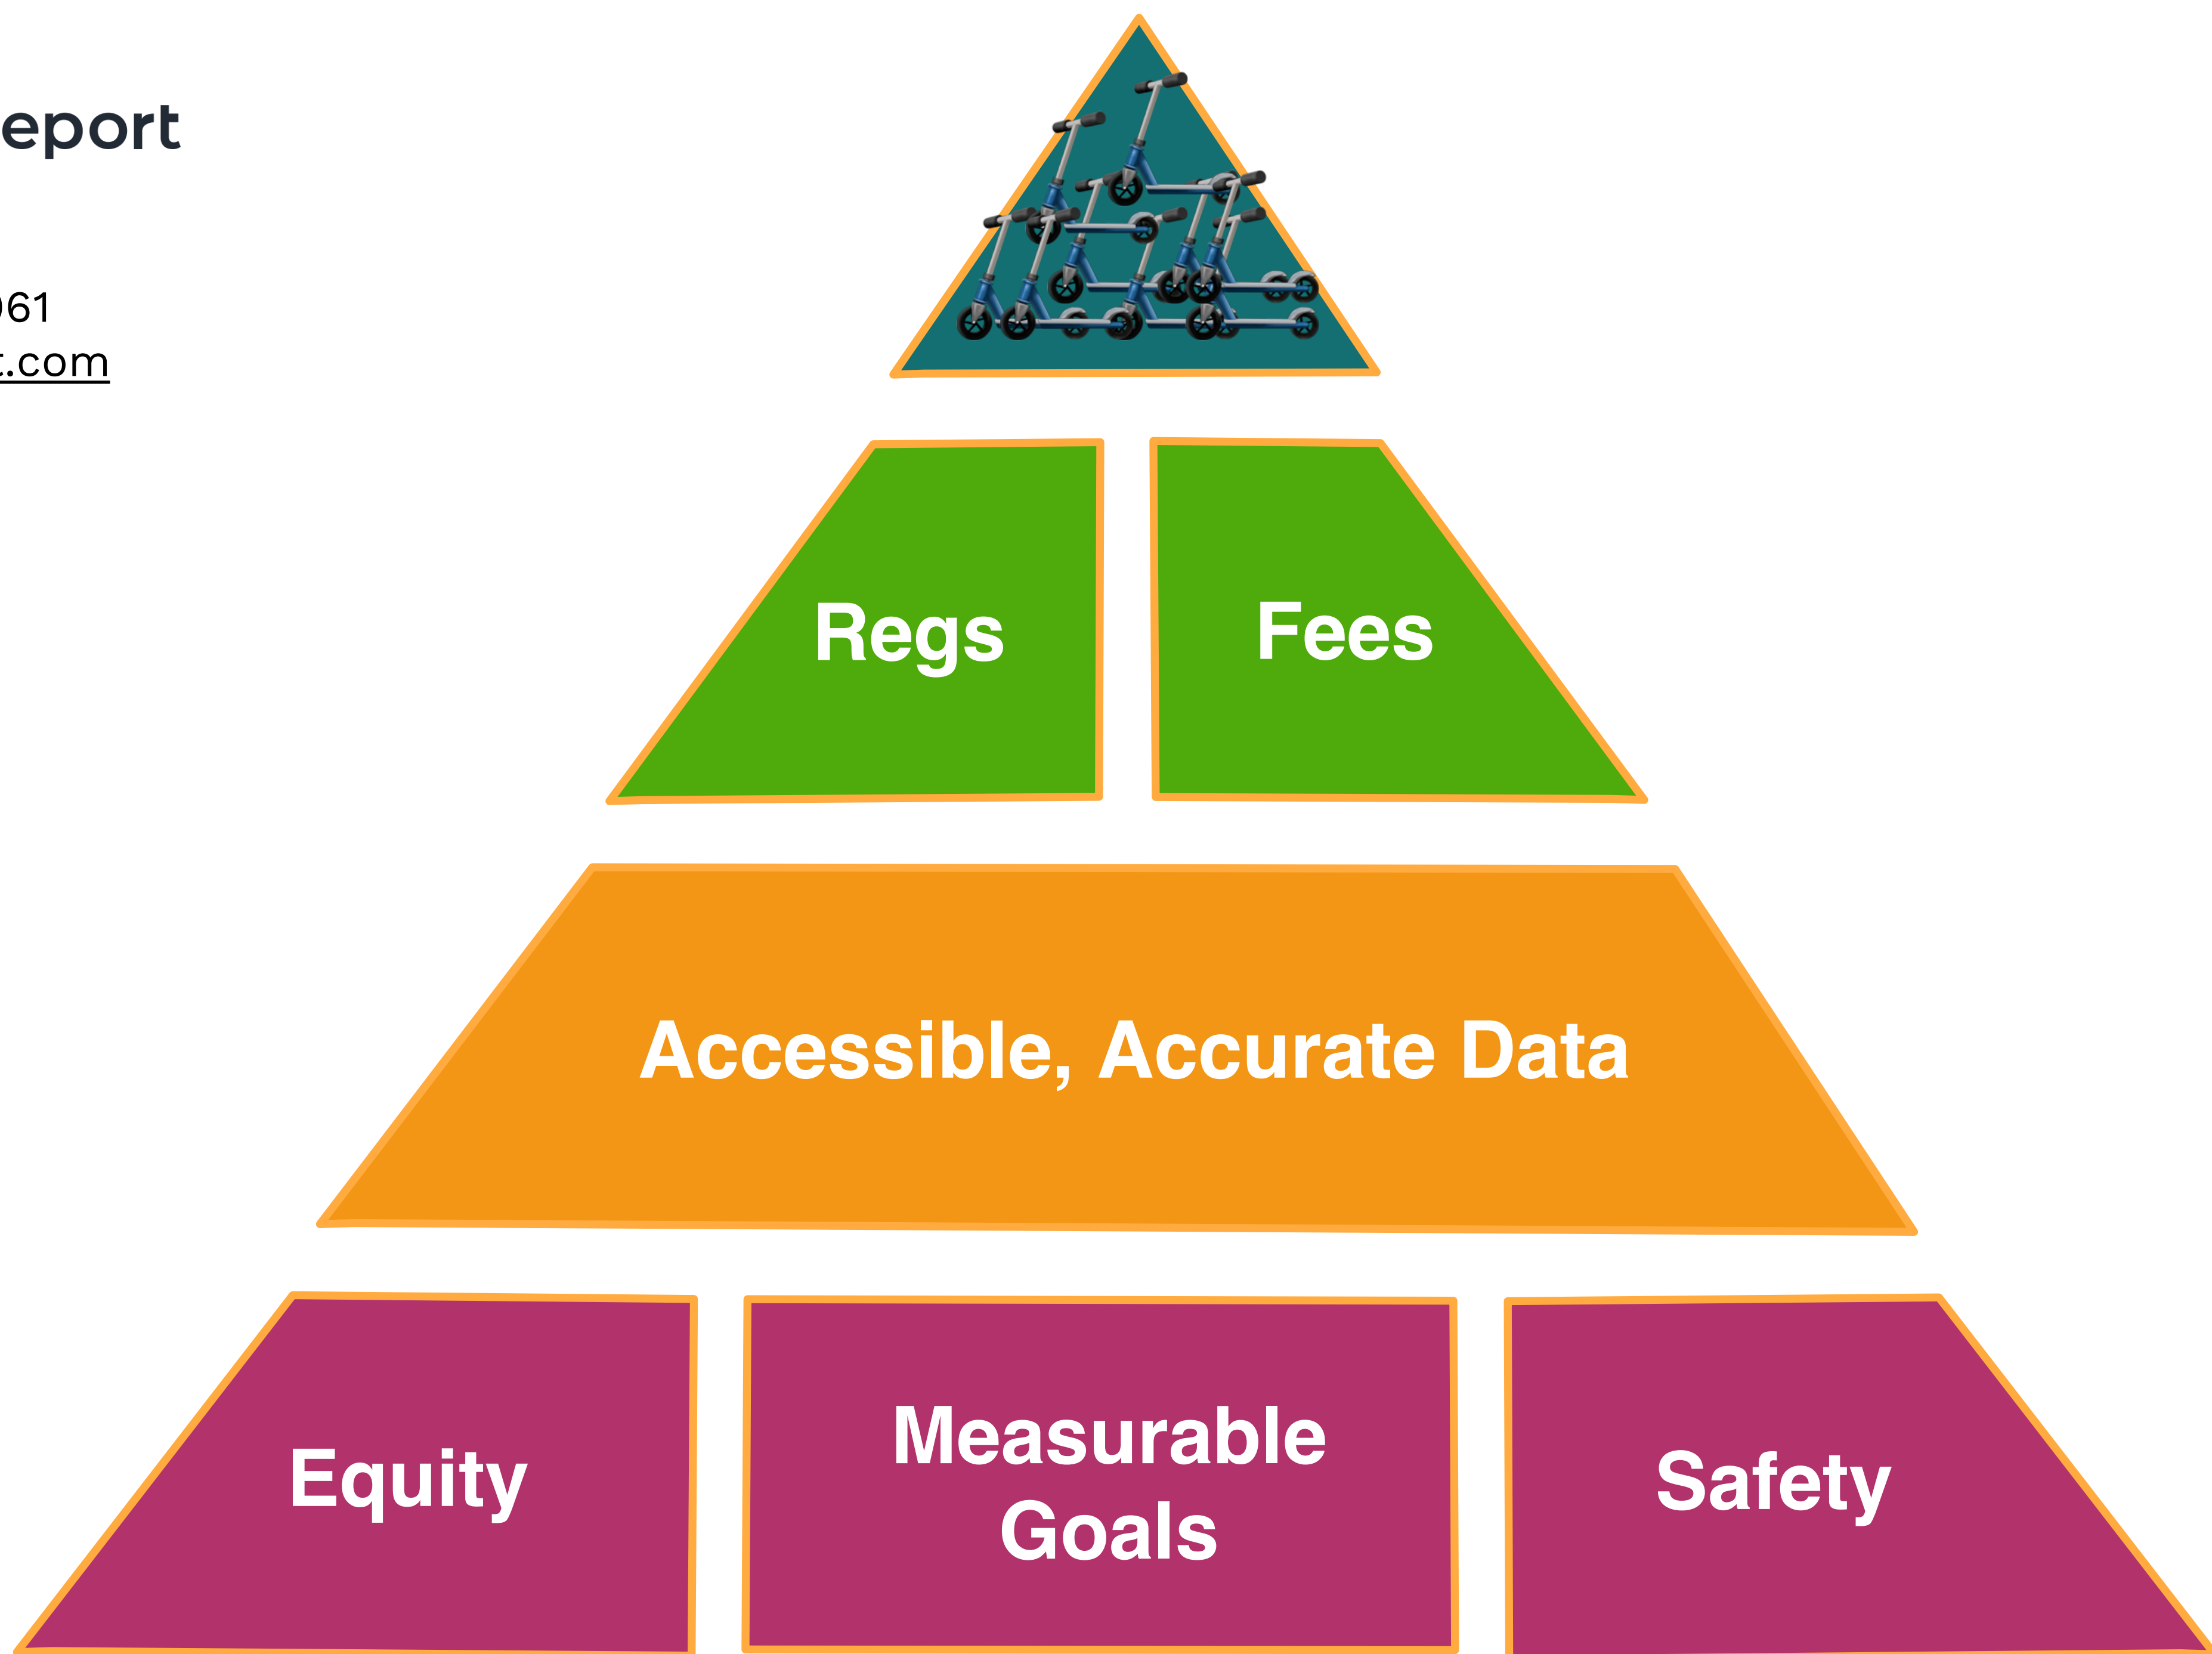

Citizens

I need access to reliable, safe, affordable mobility.

“We use Ride Report every day. It saves us time and resources on our enforcement, which has allowed us to grow our micromobility program and our contract with Ride Report. We're excited to partner with Ride Report to unlock new revenue and policy outcomes for the City.

Jason JonMichael, Assistant Director, City of Austin

Case Studies
