

MULTI-MODAL TRANSPORTATION PROJECTS

- ◆ **Automated Speed Enforcement (ASE)**
The OTC along with our municipal members and the MTO developed an ASE Program for municipalities. The OTC created several communication tools for municipalities including a website – www.aseontario.com. OTC members have access to our ASE Guidelines.
- ◆ **Multi-Modal Levels of Service (MMLOS)**
The OTC Transportation Planning Committee commissioned a report drafted by Parsons to provide an overview of the current state of practice of MMLOS analysis and potential implementation in Ontario. Dillon Consulting has been awarded the contract to work with the OTC to create an MMLOS Guideline beginning in the Fall of 2020. A Steering Committee has been struck consisting of municipalities which have financially contributed to this project.
- ◆ **Automated School Bus Stop Arm Camera**
The OTC has struck an Automated School Bus Camera Working Group to develop a consistent and sustainable program for Ontario Municipalities to capture and process offenses whereby motorists illegally pass school buses.
- ◆ **School Crossing Guard Guide**
The OTC through our School Zone Safety Committee has created a school crossing guide to provide guidance and clarification on important issues related to school zone safety.

ONTARIO TRAFFIC MANUAL (OTM) BOOK REVISIONS

- ◆ **OTM Book 18**
The OTC is leading the revisions of OTM Book 18: Cycling Facilities and WSP, our consultants on this project have provided a final draft copy to the MTO, with an anticipated publishing date of late 2020.
- ◆ **OTM Book 7**
The OTC has participated on the revised OTM Book 7 (Temporary Conditions) Steering Committee, which has an anticipated completion date of early 2021.
- ◆ **Other OTM Book Revisions**
The OTC has provided input on other OTM Book revisions through our Traffic Engineering Committee.

ONTARIO TRAFFIC MANUAL BOOK TRAINING

The OTC provides OTM Book 7 training to help create safe working conditions in temporary conditions on our roads and highways. Our course is now available live, on-line, and available through public or private offerings. OTC members receive member pricing for this training.

MLEO – PARKING ENFORCEMENT OFFICER

This 18-module on-line accreditation certificate course is ideal for anyone requiring MLEO Parking By-Law Officer training.

MTO STAKEHOLDER INPUT

◆ e-Bikes and e-Scooters

The OTC is called upon as a key stakeholder on provincial issues and opportunities. Most recently the OTC was consulted on e-scooters and e-bikes. In March, the OTC brought the industry together through a symposium to discuss the provincial e-scooters pilot.

◆ Administrative Monetary Penalty System (AMPS)

The OTC has advocated for a move to AMPS from the POA system for prosecuting automated speed enforcement offenses including red light cameras, automated speed enforcement and school bus cameras. The OTC is involved in stakeholder consultations for creating an AMP system.

COMMUNICATIONS

◆ Radar e-newsletter

This monthly electronic newsletter helps keep members up-to-date on multi-modal transportation industry news at all levels (international and regional news and everything in between).

◆ Semi-Annual OT Magazine

The OT Magazine provides in depth coverage of important and timely industry information, issues, and opportunities.
